

Winterim 2017 Information Sheet

Cuba: An Exploration of Culture through Arts, Education, and Healthcare

Cuba has long been known as a center for the arts, education, and healthcare. Brimmer's 2017 Winterim trip to the country explores all three of these systems and would serve of particular interest to any students in the School's three diploma programs; CAP, STEAM, and Global Studies. Our custom itinerary will include collaborations with the University of Havana, Havana Hospital, and the National Art High School of Havana. We will explore the cities of Havana and Trinidad, as well as take a day trip to Hemingway's Cuban home of San Francisco de Paula, Cuba.

Please note that the itinerary and dates are subject to change
